3.1 "**Construction Cost Limitation**" or "CCL" means the maximum monetary amount payable to the Design/Build Contractor for all Construction Phase services, materials, labor and other work required for completion of the Work in accordance with the Contract Documents. The CCL includes, without limitation, the General Conditions Costs, the Cost of the Work, the Construction Phase Fee and the Design/Build Contractor's Contingency. The CCL may be adjusted by the parties for changes in the scope of the Project before or after acceptance of the Guaranteed Maximum Price Proposal. The CCL does not include the Design/Build Contractor's Pre-Construction Phase Fee, or Owner's Construction Contingency or Owner's Special Cash Allowance.

3.2 "**Construction Services**" means the implementation and execution of the construction work required by the Contract Documents. The construction phase of the Project may be divided into different stages, each with different start and completion dates.

3.3 “**Contract Sum**” means the total amount of all compensation payable to the Design/Build Contractor for the Project and shall not exceed the sum total amount of the Pre-Construction Phase Services Fees plus the Guaranteed Maximum Price Proposal(s) accepted by the Owner, subject to adjustment for Additional Services or Change Orders. Any costs that exceed the Contract Sum shall be borne solely by Design/Build Contractor without reimbursement by Owner.

3.4 “**Design Consultant**” means any licensed professionals or firms, other than the Project Architect, engaged by Owner as independent consultants for the Project.

3.5 “**Design Services**” means all professional services required to fulfill the Pre-Construction Phase and any and all additional design obligations of this Agreement, including, but not limited to, programming, schematic design, design development and construction documents.

3.6 “**Direct Construction Cost**” means the sum of the amounts that the Design/Build Contractor actually and necessarily incurs for General Conditions Costs, Cost of the Work and Design/Build Contractor’s Contingency during the Construction Phase as allowed by this Agreement. Direct Construction Cost does not include Pre-Construction Phase Services Fees or Construction Phase Fees.

3.7 “**Direct Salary Expense**” or “DSE” means the actual gross salary, expressed on an hourly wage basis, of Design/Build Contractor’s and Project Architect’s employees and consultants directly engaged on the Project. For DSE purposes, Project Architect’s employees includes, but is not limited to, architects, officers, principals, engineers, designers, job captains, draftspersons, and specifications writers, who are performing consultation, research or design, or who are producing drawings, specifications, plans, or other documents pertaining to the Project, or who are performing services that are directly attributable to and necessary for the Project.

3.8 “**Estimated Construction Cost**” or “ECC” means the amount calculated by the Design/Build Contractor for the total cost of all elements of the project, including, without limitation, all alternates, allowances and contingencies, designed and specified by the Design/Build Contractor or reasonably inferable as a usual and customary component of the project or otherwise necessary for complete installation and operation of the project. The Estimated Construction Cost shall include, at current market rates with a reasonable allowance for overhead, profit and price escalation, the cost of labor and materials furnished by the Design/Build Contractor and any equipment which has been shown in the plans, specified, and specially provided for by the Design/Build Contractor. The Estimated Construction Cost shall include and consider the cost of labor and materials necessary for installation of Owner furnished equipment. The Estimated Construction Cost does not include Pre-Construction Phase Fees, the Owner’s Construction Contingency, or the Owner’s Special Cash Allowance. The Estimated Construction Cost does not include the cost of the land, rights-of-way, or any costs that are the responsibility of the Owner.

3.9 “**General Conditions Costs**” means costs incurred and minor work performed on the jobsite by the Design/Build Contractor without the need for soliciting competitive bids or proposals. The allowable General Conditions items are further described in the Agreement and limited by attached exhibit.

3.10 “**Guaranteed Maximum Price**” or “GMP” means the amount proposed by the Design/Build Contractor and accepted by the Owner as the maximum cost to the Owner for construction of the Work in accordance with the Contract Documents. The GMP includes Design/Build Contractor’s Construction Phase Fee, the General Conditions Costs, the Cost of the Work, Design/Build Contractor’s Construction Contingency amount, and the Owner’s Construction Contingency amount and Owner’s Special Cash Allowance amount.

3.11 “**Monthly Salary Rate**” means the amount agreed to by the Owner that can be used on Applications for Payment throughout the Construction Phase to account for the services of Design/Build

Contractor's salaried personnel assigned to the Project. A Monthly Salary Rate must be established for each salaried person and must be approved in writing by the Owner in advance of any Application for Payment seeking reimbursement for that person. The Monthly Salary Rate is for convenience only and any payments made for Design/Build Contractor's personnel are subject to audit to determine the actual cost of the wages and allowable employer contributions incurred by the Design/Build Contractor for services performed for the Project.

3.12 **“Preliminary Project Cost”** or “PPC” means the total estimated cost of the entire Project, including design, construction, and other associated costs and services which is established prior to the commencement of design.

3.14 **“Project Team”** means the Owner, Design/Build Contractor, Project Architect, any separate contractors employed by Owner, and other consultants employed for the purpose of programming, design, and construction of the Project. The constitution of the Project Team may vary at different phases of the Project. The Project Team will be designated by Owner and may be modified from time to time by Owner.

3.15 **“Standards and Standard Specifications”** means the construction and design requirements and standards of Owner, and various building and life safety codes as specified in the Owner's Design Guidelines which are incorporated by reference.

3.16 **“Subcontractor”** means a person or entity who has an agreement with the Design/Build Contractor to perform any portion of the Work. The term Subcontractor does not include the Project Architect or any person or entity hired directly by the Owner.

3.17 **“Total Project Cost”** or “TPC” means the total budget established for the Project by the Board of Regents or the Chancellor of The University of Texas System or the Owner at the end of the design development phase (subject to subsequent modification by Owner), which includes but is not limited to professional services costs, Design/Build Contractor's costs, the costs of the General Conditions items, furniture, fixtures and equipment costs, landscaping costs, moving costs, and other miscellaneous costs.

3.18 **“Work”** means the provision of all services, labor, materials, supplies, and equipment which are required or reasonably inferable to complete the Project in strict accordance with the requirements of the Contract Documents. Work includes, but is not limited to, the Pre-Construction Phase Services, Design Services, the GMP proposal, the Construction Phase Services, and any Additional Services and other services required. The term “reasonably inferable” takes into consideration the understanding of the parties that not every detail will be shown on the Drawings and included in the Specifications.

3.19 **“Worker Wage Rate”** means the actual hourly wage of non-salaried persons performing work on the Project plus allowable employer contributions as established on the Worker Wage Rate Form required by the Construction Documents. The Worker Wage Rate for individual persons must be reasonable and customary for their industry and must be approved in writing by the Owner in advance of any Application for Payment for that person. Any payments made for personnel are subject to audit to determine the actual cost of the wages and allowable employer contributions incurred by the Design/Build Contractor for services performed for the Project.

ARTICLE 4 DESIGN/BUILD CONTRACTOR'S GENERAL RESPONSIBILITIES

4.1 Design/Build Contractor shall perform all services specifically allocated to it by the Contract Documents as well as those services reasonably inferable from the Contract Documents as necessary for completion of the Work and the Project. Design/Build Contractor agrees to perform these services using its best efforts, skills, judgments and abilities.

4.2 Design/Build Contractor shall coordinate with the Project Architect and endeavor to further the interests of the Owner and the Project. Design/Build Contractor shall furnish Pre-Construction Phase Services and Construction Phase Services and complete the Project in an expeditious and economical manner consistent with the interests of the Owner and in accordance with the Project Schedule.

4.3 Within seven (7) days of receipt of the Notice to Proceed with Pre-Construction Phase Services, the Design/Build Contractor shall submit for the Owner's review and acceptance a CPM Milestone Schedule in accordance with the Project Planning and Scheduling requirements of the Owner's Specifications. The CPM Milestone Schedule shall encompass the entire Project duration, including performance of the both the Pre-Construction Phase Services and the Construction Phase Services with sufficient total Project float to allow for a minimum of Construction Phase float as specified.

4.4 The CPM Milestone Schedule for the Pre-Construction Phase of the Project shall include reasonable amounts of time for the Owner's review and approval of design drawings and specifications, the GMP Proposal(s) and for approval of authorities having jurisdiction over the Project.

4.5 Upon acceptance of the CPM Milestone Schedule, it shall become the baseline for evaluating performance of the Project and Design/Build Contractor shall monitor the progress of the Project in relation to the CPM Milestone Schedule and provide the Owner with at least monthly updates and status reports as outlined in the Owner's Specifications. The time periods established in the CPM Milestone Schedule for the Pre-Construction Phase and the Construction Phase and the overall duration of the Project shall not be changed without written consent from the Owner. Modifications to the CPM Milestone Schedule logic, coding, layouts and filters, detail, and activity durations shall be in accordance with the Owner's Specifications.

4.6 Design/Build Contractor shall designate, in writing, a representative authorized to act on the Design/Build Contractor's behalf with respect to the Project.

4.7 Design/Build Contractor shall establish procedures for communication and coordination among the Project Team, Subcontractors, separate contractors, and others with respect to all aspects of the construction of the Project, and implement such procedures.

4.8 Design/Build Contractor shall establish and maintain a numbering and tracking system for all Project records, including changes, requests for information, submittals, and supplementary instructions and shall provide updated records at each Owner's meeting and when requested.

4.9 Fast Track/Multiple Completion Times. If the Owner elects to "fast-track" or develop the Project in multiple stages, Design/Build Contractor shall organize and perform its services as appropriate to each stage. Each stage of the Project may have a unique schedule for completion and a specific Construction Cost Limitation, at Owner's discretion.

4.10 Design/Build Contractor shall attend and participate in Owner's "Partnering" Program for all phases of the Project.

4.11 Design/Build Contractor shall identify to the Owner the employees and other personnel that it will assign to the Project and provide the Monthly Salary Rate for each of them. Design/Build Contractor shall also identify any consultants that will be performing services for the Project. After execution of this Agreement by the Owner, Design/Build Contractor shall not remove or replace the persons or entities assigned to the Project except with the Owner's written consent, which consent shall not be unreasonably withheld. Design/Build Contractor shall not assign to the Project or contract with any person or entity to which Owner has a reasonable objection. Design/Build Contractor shall promptly update and resubmit Exhibit F, Design/Build Contractor's Personnel and Monthly Salary Rates form, indicating the list of persons by name and title and consultants if they change during the course of the Project. Design/Build Contractor's employees and other personnel that it assigns to the project shall be identified on the Schedule of Values by name and title.

4.12 The Owner's Policy on the Utilization of Historically Underutilized Businesses ("Policy") is described in an attached exhibit. Design/Build Contractor, as a provision of the Agreement, must comply with the requirements of the Policy and adhere to the HUB Subcontracting Plans submitted for Pre-Construction Phase and Construction Phase Services. No changes to the HUB Subcontracting Plans can be made by the Design/Build Contractor without the written approval of Owner in accordance with the Policy.

ARTICLE 5 PRE-CONSTRUCTION PHASE

The Pre-Construction Phase shall be deemed to commence upon the date specified in a Notice to Proceed with Pre-Construction Phase Services issued by Owner and shall continue through completion of the Construction Documents and procurement of all major Subcontractor agreements. Design/Build Contractor is not entitled to reimbursement for any costs incurred for Pre-Construction Phase Services performed before issuance of the Notice to Proceed. Pre-Construction Phase Services may overlap Construction Phase Services. The Design/Build Contractor shall perform the following Pre-Construction Phase Services.

5.1 PRE-CONSTRUCTION SERVICES

5.1.1 General Coordination

5.1.1.1 The Design/Build Contractor's Pre-Construction Phase Services team, including the Project Architect, shall attend Project Team meetings with the Owner and the Owner's representatives at regularly scheduled intervals throughout the Pre-Construction Phase. Frequent Project Team meetings are anticipated prior to the Owner's acceptance of the GMP Proposal(s) and during completion of the Construction Documents.

5.1.1.2 Provide a preliminary evaluation of the Owner's Design Criteria Package and the Construction Cost Limitation, each in terms of the other.

5.1.1.3 Review and understand the standards and requirements in Owner's Specifications and perform all services in accordance with those standards and requirements.

5.1.1.4 Visit the site and inspect the existing facilities, systems and conditions to insure an accurate understanding of the existing conditions as required.

5.1.1.5 Participate as a member of the Project Team in the development of the Project Facility Program if such program has not been developed prior to the Effective Date of this Agreement.

5.1.1.6 Provide recommendations and information to the Project Team on: site usage and site improvements; building systems, equipment and construction feasibility; selection and availability of materials and labor; time requirements for installation and construction; assignment of responsibilities for safety precautions and programs; temporary Project facilities; equipment, materials and services for common use of the Design/Build Contractor and Owner's separate contractors, if any; cost factors, including costs of alternative materials or designs, preliminary budgets, and possible cost savings; recognizing and tracking the resolution of conflicts in the proposed Drawings and Specifications; methods of delivery of materials, systems, and equipment; and any other matters necessary to accomplish the Project in accordance with the Project Schedule (as defined below) and the CCL.

5.1.1.7 Assist the Owner in selecting and directing the services of surveyors, soils engineers, existing facility surveys, testing and balancing, environmental surveys or other special consultants hired by the Owner to develop additional information for the design or construction of the Project.

5.1.1.8 At Owner's request, attend public meetings and hearings concerning the development and schedule of the Project.

5.1.2 Constructability Program

5.1.2.1 Implement and conduct a constructability program to identify and document Project cost and schedule savings opportunities. The constructability program shall follow accepted industry practices and be in accordance with the requirements of the attached exhibit. Whenever the term "value engineering" is used in conjunction with this Agreement or the Project, it has its commonly accepted meaning within the construction industry and does not imply the practice of professional engineering without a license. If any value engineering activities constitute the professional practice of engineering, then such activities shall be performed by an engineer licensed in Texas.

5.1.2.2 Prepare a "Constructability Report" that identifies items that, in the Design/Build Contractor's opinion, may negatively impact construction of the Project. The Constructability Report shall address the overall coordination of Project Drawings, Specifications, and details and identify discrepancies that may generate Change Orders or claims once Project construction commences. The Constructability Report shall be updated at least monthly during the Pre-Construction Phase.

5.1.2.3 Provide and implement a system for tracking questions, resolutions, decisions, directions and other information matters that arise during the development of the Drawings and Specifications for the Project. The decision tracking system shall be in a format approved by the Owner and updated at least monthly during the Pre-Construction Phase.

5.1.3 Budget and Cost Consultation

5.1.3.1 The Design/Build Contractor is responsible for preparing and updating all procurement and construction cost estimates and distributing them to the Project Team throughout the duration of the Project.

5.1.3.2 The Design/Build Contractor shall provide updated and detailed Estimated Construction Cost reports at the required stages of completion of the schematic design, design development, and construction document stages of the Project. The Estimated Construction Cost reports for the design development and construction document stages shall be detailed estimates derived from cost quantity surveys based on unit prices for labor, materials, overhead and profit, organized in Construction Specifications Institute MasterFormat™ format for each portion of the Work. If the Estimated Construction Cost exceeds the Construction Cost Limitation at any time, the Owner will determine, solely at Owner's discretion, whether to increase the Construction Cost Limitation, or to instruct the

Design/Build Contractor to proceed to the next stage of design with no increase in the Construction Cost Limitation, or to require the Design/Build Contractor to revise, at no charge to the Owner, the Project scope or quality to comply with the Construction Cost Limitation. Reductions in Project scope or quality are subject to Owner's review and approval. If the Estimated Construction Cost is below the Construction Cost Limitation at any time, the Owner may determine, solely at Owner's discretion, whether to reduce the Construction Cost Limitation, or to instruct the Design/Build Contractor to proceed to the next stage of design with no decrease to the Construction Cost Limitation, or to require the Design/Build Contractor to increase the Project scope or quality.

5.1.3.3 Provide continuous cost consultation services throughout the duration of the Project, including identification and tracking of decisions that affect the scope or quality of the Project and providing ongoing updates of their cost and budget impact. Advise the Project Team immediately if the Design/Build Contractor has reason to believe that the most current ECC will exceed the Construction Cost Limitation (CCL) or not meet Project Schedule requirements and recommend reasonable strategies for bringing the Project in line with the CCL and the Project Schedule.

5.1.3.4 Design/Build Contractor shall promptly identify all variances between estimated costs and actual costs during the Pre-construction Phase and the Construction Phase, and shall promptly report such variances to the Project Team along with recommendations for action, but in any event no more than two (2) business days after acquiring such information.

5.1.4 Coordination of Design and Construction Contract Documents

5.1.4.1 Review all Drawings, Specifications, and other Construction Documents as they are developed by the Project Architect during the schematic design, design development, and construction document design stages of the Project.

5.1.4.2 Consult with Owner and Project Architect on the selection of materials, equipment, component systems, and types of construction used on the Project. Advise Owner on site use, construction feasibility, availability of labor and materials, procurement time requirements, and construction coordination.

5.1.4.3 Advise Owner of any error, inconsistency or omission discovered in the Drawings, Specifications, and other Construction Documents.

5.1.4.4 Advise Owner on reasonable adjustments in the Project scope, quality or other options for keeping the Project within the CCL.

5.1.4.5 Review the Construction Documents for compliance with all applicable laws, rules and regulations and with Owner requirements.

5.1.5 Construction Planning and Procurement Strategy

5.1.5.1 Identify equipment or material requiring extended delivery times and advise Owner on expedited procurement of those items. Advise Owner and Project Architect on the preparation of performance specifications and requests for technical proposals for the procurement and installation of systems and components and for the procurement of long lead items. If requested by Owner, and subject to Owner's prior approval, issue requests for technical proposals to qualified sources and receive proposals and assist in their evaluation.

5.1.5.2 Make recommendations to the Project Team regarding organization of the Construction Documents to facilitate the soliciting of offers and the awarding of construction subcontracts in a manner that promotes the interests of the Project and the Owner. These recommendations may include, but are not limited to, phased or staged construction or multiple separate contracts. The recommendations shall take into consideration such factors as time of performance, type and scope of work, availability of labor and materials, overlapping trade jurisdictions, provisions for temporary facilities, comparisons of factory and on-site production costs, shipping costs, code restrictions, the Owner's goals for HUB contractor participation, and other constraints.

5.1.5.3 Review the Construction Documents with the Project Team to eliminate areas of conflict and overlap in the work to be performed by the various Subcontractors or Owner's separate contractors.

5.1.5.4 Develop a procurement package strategy in coordination with the Project Architect that addresses the entire scope of Work for each phase and stage of the Project. In developing the procurement package strategy, the Design/Build Contractor shall identify all procurement packages on which the Design/Build Contractor intends to submit a self-performance bid or proposal. The procurement package strategy shall be reviewed with the Owner on a regular basis and revised throughout the buyout of the Project so as to best promote the interests of the Project and the Owner.

5.1.5.5 Assist the Owner, the Project Architect, Owner's other consultants, and the Owner's separate contractors in obtaining all applicable risk management, code, and regulatory agency reviews and approvals for the Project including, without limitation, the Texas Higher Education Coordinating Board, the Texas Department of Licensing and Regulation, the State Fire Marshal, the local fire department, and the Owner's insurance provider.

5.1.5.6 Refine, implement and monitor required HUB Subcontracting Plans to promote equal employment opportunity in the provision of goods and services to the Owner for the Project.

5.1.5.7 Advise Owner of any tests to be performed, and assist Owner in selecting testing laboratories and consultants, without assuming direct responsibility for the work of such laboratories and consultants.

5.1.5.8 Design/Build Contractor shall review the Construction Documents to ensure that they contain adequate provision for all temporary facilities necessary for performance of the Work, and provisions for all of the job site facilities necessary to manage, inspect, and supervise construction of the Work.

5.1.5.9 Provide an analysis of the types and quantities of labor required for the Project and review the appropriate categories of labor required for critical phases and stages. Make recommendations that minimize adverse effects of labor shortages.

5.1.5.10 Furniture, Fixtures and Equipment. Consult with and make recommendations to the Owner on the acquisition schedule for fixtures, furniture and equipment, and coordinate with the Owner as may be required to meet the Project Schedule.

5.1.6 Obtaining Offers for the Work

5.1.6.1 Design/Build Contractor shall publicly advertise and solicit competitive lump sum bids or competitive lump sum proposals from trade contractors or subcontractors for the performance of all major elements of the Work other than the minor work that may be included in General Conditions. Subcontracts awarded on the basis of competitive bids shall be awarded to the lowest responsible bidder. For subcontracts awarded on the basis of competitive sealed proposals, criteria for determining the proposals that provide the best value to the Owner shall be established by the Project Team and included

in the request for proposals. The Design/Build Contractor shall notify the Owner in advance in writing of the date(s) it will receive bids and proposals.

5.1.6.2 Schedule and conduct pre-submittal conferences with interested offerors, subcontractors, material suppliers, and equipment suppliers, and record minutes of the conferences.

5.1.6.3 Design/Build Contractor and Owner shall review all trade contractor or Subcontractor offers in a manner that does not disclose the contents of any bid or proposal to persons outside of the Project Team during the selection process. Based on the selection criteria included in the requests for bids or requests for proposals, Design/Build Contractor shall recommend to the Owner the bid submitted by the lowest responsible bidder, if soliciting competitive bids, or the proposal that provides the best value for the Project if soliciting competitive proposals. Upon Owner's concurrence in the recommendation, Design/Build Contractor may negotiate the terms of the subcontract with the apparent lowest responsible bidder or best value offeror.

5.1.6.4 All subcontracts must be on a lump sum basis unless other payment terms are approved in writing and in advance by the Owner's Executive Director for Facilities Planning, Design, and Construction. Upon Owner's concurrence in the final terms of the subcontract, Design/Build Contractor shall enter into a written subcontract for the subcontract work and provide a copy to the Owner. All offers shall be publicly available after award of the subcontract or within seven (7) days after the date of final selection, whichever is later.

5.1.6.5 If Design/Build Contractor reviews, evaluates, and recommends to Owner an offer from a trade contractor or subcontractor, but Owner requires another offer to be accepted, Owner shall compensate Design/Build Contractor by a change in price, time, or Guaranteed Maximum Price for any additional cost and risk that Design/Build Contractor incurs because of Owner's requirement that the other offer be accepted.

5.1.6.6 Design/Build Contractor may seek to self-perform portions of the Work identified for self-performance in the procurement package strategy. The Design/Build Contractor must submit an offer for the self-performance work in the same manner as all other trade contractors or subcontractors. The Owner will determine whether the Design/Build Contractor's offer provides the best value for Owner, which determination is final. Design/Build Contractor must perform approved self-performance work in accordance with the same terms and conditions as its other Subcontractors. For payment purposes, the Design/Build Contractor shall account for self-performance work in the same manner as it does all other subcontract costs.

5.1.6.7 For scope of work procurement packages typically performed by subcontractors, Design/Build Contractors may "self-perform" such work on a cost plus fee (Not-To-Exceed 7.5%) basis subject to an agreed upon guaranteed maximum price for the "self-performed work". The Design/Build Contractor shall submit its Guaranteed Maximum Price for the work to be "self-performed" against at least three other interested trade contractors. Any subcontract for "self-performed work" will provide for payment in an amount equal to the Cost of the Work (as defined in this Agreement) and will not exceed the agreed upon subcontract guaranteed maximum price. All terms and provisions of any subcontract for "self-performed work" will be consistent with the terms and conditions of this Agreement with the exception of the agreed upon Fee percentage. All savings under any such subcontract for "self-performed work" shall be applied to reduce the Cost of the Work under this Agreement and the Guaranteed Maximum Price of this Agreement. For purposes of defining "self-performed work" subject to this provision, any division of Design/Build Contractor, or any separate design/build contractor or subcontractor that is partially owned or wholly owned by the Design/Build Contractor or any of its employees or employee's relatives will be considered a related party entity and will be subject to this

provision regarding “self-performed work”. No self-performed work will be allowed to be performed on a lump sum basis.

5.1.6.8 Design/Build Contractor shall identify every Subcontractor it intends to use on the Project, including subcontractors used for self-performed work, to the Owner in writing at least ten (10) days before entering into any subcontract. Design/Build Contractor shall not use any subcontractor to which Owner has a reasonable objection. Design/Build Contractor shall not be required to subcontract with any subcontractor to which it has reasonable objection. Following Owner acceptance of a subcontractor, that subcontractor shall not be changed without Owner’s written consent, which shall not be unreasonably withheld.

5.1.6.9 If a selected trade contractor or subcontractor fails to execute a subcontract after being selected in accordance with this section or defaults in the performance of its work, the Design/Build Contractor may, in consultation with the Owner and without further advertising, fulfill the subcontract requirements itself or select a replacement trade contractor or subcontractor to do so.

5.1.7 Safety

5.1.7.1 In accordance with UTUGCs, Design/Build Contractor is responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. The safety program shall comply with all applicable requirements of the Occupational Safety and Health Act of 1970 and all other applicable federal, state and local laws and regulations and with the requirements of an Owner controlled insurance program, if any.

5.1.7.2 Design/Build Contractor shall provide recommendations and information to Owner and Project Architect regarding the assignment of responsibilities for safety precautions and programs, temporary Project facilities, and equipment, materials, and services for common use of the Subcontractors. Design/Build Contractor shall verify that appropriate safety provisions are included in the Construction Documents. The existence or creation of any Owner controlled insurance program in connection with the Work shall not lessen or reduce the Design/Build Contractor’s safety responsibilities.

5.2 DESIGN SERVICES

5.2.1 General Responsibilities

5.2.1.1 Design/Build Contractor shall designate in writing a representative who is responsible for the day-to-day management of the Design Services. The designated representative shall be the Owner’s primary contact during the design phase of the Project and shall be available as required for the benefit of the Project and the Owner. The designated representative shall be authorized to act on behalf of and to bind the Design/Build Contractor in all matters related to Design Services. The designated representative shall not be changed without advance written approval from the Owner, which approval shall not be unreasonably withheld.

5.2.1.2 Design/Build Contractor shall engage the services of a Project Architect and other qualified professionals as required for performance of the Design Services. Design/Build Contractor certifies that the Project Architect and all other professional consultants have been or will be selected on the basis of competence and qualifications pursuant to *Texas Education Code* section 51.780(f)(1). Design/Build Contractor shall not perform any architectural or engineering services directly unless Design/Build Contractor is licensed in Texas to perform such services. All drawings, specifications, change orders and other design documents shall bear the seal of the licensed professional who prepared them in accordance with the applicable laws and regulations of the State of Texas.

5.2.1.3 Design/Build Contractor shall be solely responsible for all obligations to the Project Architect and shall pay for the services of the Project Architect and all other professional service providers out of the fees for this Agreement. However, the Owner shall be identified as an intended beneficiary in all such agreements and the Project Architect and all other professional service providers shall acknowledge that they owe a duty of professional care to the Owner for the Design Services provided for the Project. Nothing in this Agreement shall create any contractual obligation from the Owner to the Project Architect or other design professionals not hired directly by the Owner.

5.2.1.4 The Design/Build Contractor shall be responsible for managing the Design Services so as to insure that the Project, as designed, can be constructed for an amount that is within the Construction Cost Limitation and will achieve the energy and operational savings required by the Contract Documents. The obligation to design the Project so as to achieve the program objectives of scope and cost shall continue through completion and acceptance of Construction Documents.

5.2.1.5 The Design/Build Contractor shall submit the names of all proposed consultants for Design Services, including the Project Architect and any of its consultants, for approval by the Owner, which approval shall not be unreasonably withheld. The Design/Build Contractor shall provide the Owner with a copy of the fully executed contract or agreement authorizing services by any such consultant. All such contracts shall provide that the consultants are bound to Design/Build Contractor in the same manner and to the same extent as Design/Build Contractor is bound to Owner.

5.2.1.6 The Design Services shall incorporate current technology as appropriate to the stated mission of the institution and the programmed functional activities that is compatible with any existing facility and acceptable to the Owner.

5.2.1.7 All Design Services for the Project shall be provided in accordance with the Owner's Design Guidelines, Design Criteria Package and the Campus Master Plan Guidelines, which are incorporated herein by reference, and any other criteria applicable to the facility program and the needs of the institution.

5.2.1.8 The Design/Build Contractor warrants to Owner the sufficiency and completeness of all Design Services performed and that all drawings, specifications, and other information furnished or provided by Design/Build Contractor shall be free from material errors and omissions. Approval or acceptance of any Design Services by Owner shall not in any way release Design/Build Contractor from any duty, responsibility or liability for such services, it being understood that Owner is at all times relying upon Design/Build Contractor's skill and knowledge in performing the Design Services.

5.2.1.9 Owner shall have the right to reject any defective Design Services or other defective Work on the Project of which Owner becomes aware and Design/Build Contractor shall promptly correct any such defect at Design/Build Contractor's expense. Should any portion of the Project Work be damaged or defective due to an error or omission in the Design Services, including errors or omissions in any plans, drawings, specifications, and other construction document materials prepared or furnished by Design/Build Contractor, Design/Build Contractor shall promptly correct any such damage or defect at no additional cost to the Owner. Should the Design/Build Contractor refuse or neglect to correct any such damage or defect within a reasonable time after notice, Owner may cause the damage or defect to be corrected and withhold payment or collect monetary damages equal to the cost of replacing or repairing the defective Work.

5.2.1.10 Owner may elect, at its option, to stage or to "fast-track" construction of the Project in different stages. Such stages may or may not overlap. Design/Build Contractor shall perform Design Services in staged packages as appropriate to each stage of construction which may result in differing schedules and

reviews for the completion of each design stage and for each stage of planned construction. The Owner may elect, at its option, to establish a different Construction Cost Limitation for each such stage.

5.2.1.11 At each stage of the Design Services, as part of Basic Services, Design/Build Contractor shall provide the following services as appropriate:

- Architectural Services
- Structural Engineering Services
- Mechanical Engineering Services
- Electrical Engineering Services
- Construction Cost Estimating
- Scheduling Services
- Lighting Consultant
- Elevator/Conveying Systems
- Acoustical Consultant
- Water proofing/Curtain Wall/Roofing
- Basic interior design services to include, but not necessarily be limited to, designing architectural elements and developing finish schedules for Owner's review and approval

5.2.1.12 The Design/Build Contractor, as part of Basic Services, shall assist with and attend with Owner representatives an open meeting to be held pursuant to *Texas Government Code* Section 2166.403, to verify the economic feasibility of incorporating alternative energy devices for space heating, cooling, water heating, electrical loads, and interior lighting into the building's design and proposed energy system. At a minimum, Design/Build Contractor shall provide an evaluation for the potential of renewable energy applications pursuant to the legislative requirements.

5.2.1.13 Design/Build Contractor shall comply with the Energy Conservation Design Standard for New State buildings adopted by the State Energy Conservation Office, 34 *Texas Administrative Code*, Part 1, Chapter 19, and provide a Statement of Compliance certifying that the project design complies with the standards.

5.2.1.14 NOT USED

5.2.1.15 Design/Build Contractor shall not proceed to any subsequent stage of Design Services until Owner has authorized Design/Build Contractor to proceed in writing, except at the Design/Build Contractor's sole financial risk.

5.2.2 Pre-Design Stage

5.2.2.1 The Design/Build Contractor shall provide a preliminary evaluation of the Owner's Design Criteria Package and the Construction Cost Limitation, each in terms of the other.

5.2.2.2 The Design/Build Contractor shall visit the site to become sufficiently familiar with the existing facilities, systems and conditions to insure that the Project as designed will functionally interface with the existing conditions as required.

5.2.2.3 The Design/Build Contractor shall review laws applicable to the design and construction of the Project and advise the Owner if any program requirement may cause a violation of such laws.

5.2.2.4 Before proceeding to the Schematic Design Stage, the Design/Build Contractor shall obtain Owner's written approval of the Facility Program and the Estimated Construction Cost and written authorization to proceed.

5.2.3 Schematic Design Stage

5.2.3.1 Based on the approved pre-design documents and any adjustments to the Facility Program or Construction Cost Limitation or the Project Schedule authorized by the Owner, the Design/Build Contractor shall develop sufficient alternative approaches to the design and construction of the Project and shall review them with the Owner. The Design/Build Contractor shall prepare Schematic Design documents and the Estimated Construction Cost and submit them to the Owner for approval. The Estimated Construction Cost shall affirm adherence to the Construction Cost Limitation. . The Design/Build Contractor shall advise the Owner of any adjustments to the project scope necessary to align the Estimated Construction Cost with the Construction Cost Limitation and shall revise the Schematic Design Documents, without charge to the Owner, as may be required to comply with the Construction Cost Limitation. The Owner may, solely at Owner's discretion and in writing, increase or decrease the Construction Cost Limitation to align with the Design/Build Contractor's Estimated Construction Cost.

5.2.3.2 The Design/Build Contractor shall furnish and deliver to the Owner the number of complete printed sets of Schematic Design documents as required.

5.2.3.3 Before proceeding to the Design Development Stage, the Design/Build Contractor shall obtain Owner's written authorization to proceed and the Owner's acknowledgement of the Design/Build Contractor's submission of the Estimated Construction Cost. Owner's acknowledgement of the Design/Build Contractor's submission of the Estimated Construction Cost prepared at the Schematic Design Phase does not relieve the Design/Build Contractor of its obligation to design and construct the Project within the Construction Cost Limitation.

5.2.4 Design Development Stage

5.2.4.1 Based on the approved Schematic Design documents and any adjustments to the Facility Program or Construction Cost Limitation or Project Schedule authorized by the Owner, the Design/Build Contractor shall prepare Design Development documents and shall review and update the Estimated Construction Cost and submit them to the Owner for approval. The Design Development documents shall fix and describe the size and character of the entire Project, including site work, architectural, structural, mechanical and electrical systems, materials and such other elements as may be appropriate. The Estimated Construction Cost shall confirm adherence to the Construction Cost Limitation. The Design/Build Contractor shall advise the Owner of any adjustments to the project scope necessary to align the Estimated Construction Cost with the Construction Cost Limitation and shall revise the Design Development documents, without charge to the Owner, as may be required to comply with the Construction Cost Limitation. The Owner may, solely at Owner's discretion and in writing, increase or decrease the Construction Cost Limitation to align with the Design/Build Contractor's Estimated Construction Cost.

5.2.4.2 The Design/Build Contractor shall furnish and deliver to the Owner the number of complete printed sets of Design Development documents as required.

5.2.4.3 The Design/Build Contractor shall prepare presentation materials as described in Owner's Design Guidelines at completion of Design Development and, if requested, present them at a Board of Regents meeting, or other approval meeting as requested by Owner.

5.2.4.4 Before proceeding into the Construction Document Stage, the Design/Build Contractor shall obtain Owner's written authorization to proceed and the Owner's acknowledgement of the Design/Build Contractor's submission of the Estimated Construction Cost. Owner's acknowledgement of the Design/Build Contractor's submission of the Estimated Construction Cost prepared at the Design

Development phase does not relieve the Design/Build Contractor of its obligation to design and construct the Project within the Construction Cost Limitation.

5.2.5 Construction Documents Stage

5.2.5.1 Based on the approved Design Development documents and any further adjustments to the Facility Program, the Construction Cost Limitation or the Project Schedule as authorized by the Owner, the Design/Build Contractor shall prepare Construction Documents consisting of Drawings and Specifications and submit them to the Owner for approval. The Construction Documents shall set forth in detail the requirements for construction of the Project. The Construction Documents shall provide for the construction of the Project within the approved Construction Cost Limitation. The Design/Build Contractor shall advise the Owner of any adjustments to the project scope necessary to align the Estimated Construction Cost with the established Construction Cost Limitation and shall revise the Construction Documents, without charge to the Owner, as may be required to comply with the Construction Cost Limitation. The Owner may, solely at Owner's discretion and in writing, increase or decrease the Construction Cost Limitation to align with the Design/Build Contractor's Estimated Construction Cost.

5.2.5.2 The Construction Documents shall be consistent in all material respects with Design/Build Contractor's prior design proposals to Owner and with the approved Guaranteed Maximum Price proposal.

5.2.5.3 The Design/Build Contractor shall advise the Owner regarding construction phasing and scheduling, the construction contract time period, and such other construction conditions considered appropriate for the Project.

5.2.5.4 The Design/Build Contractor shall assist and advise the Owner in connection with the Owner's responsibility and procedures for obtaining approval of authorities having jurisdiction over the Project.

5.2.5.5 The Design/Build Contractor shall furnish and deliver to the Owner the number of complete printed sets of Construction Documents as required.

5.2.5.6 Following Owner's written acceptance of the Construction Documents, Design/Build Contractor shall deliver to the Owner Computer-aided Design and Drafting ("CADD") system copies of the Construction Documents in the format and media specified by the Owner.

5.2.5.7 Following Owner's written acceptance of the Construction Documents, Design/Build Contractor shall not be entitled to any adjustment in the approved Construction Cost Limitation except for changes in Project scope or quality which materially increase or decrease the cost to construct the Project that are ordered by Owner in writing in accordance with the UTUGCs .

5.2.6 Review Drawings

5.2.6.1 The Design/Build Contractor, at its sole expense, shall provide Owner with the required number of design document review sets at each required stage of completion:

5.2.6.2 The Design/Build Contractor shall incorporate into the documents such corrections and amendments as the Owner requests at each stage review, unless the Design/Build Contractor objects to such changes in writing and Owner agrees to the objections. Any additional cost incurred due to Design/Build Contractor's failure to incorporate Owner's requested corrections and amendments shall be borne by the Design/Build Contractor.

5.2.6.3 Design/Build Contractor shall identify to Owner in writing anything in Design/Build Contractor's drawings and specifications and any drawings, plans, sketches, instructions, information, requirements, procedures, requests for action, and other data supplied to Design/Build Contractor (by Owner or any other party) that Design/Build Contractor regards as unsuitable, improper, or inaccurate in connection with the purposes for which such documents or data are furnished. Design/Build Contractor shall be solely responsible for the use of such documents or data unless Design/Build Contractor advises Owner in writing that in its opinion such documents or data are unsuitable, improper, or inaccurate and Owner instructs the Design/Build Contractor in writing to proceed in accordance with the documents or data as originally given.

5.2.6.4 The Design/Build Contractor shall pay all costs for plans, specifications and other design and construction documents used by the Design/Build Contractor and its consultants and Subcontractors, and all documents produced for review by the Owner, except for changes generated solely by Owner.

5.2.6.5 If any of the plans, specifications and other design and construction documents or other work materials produced or used by Design/Build Contractor pursuant to this Agreement are damaged or destroyed by fire or other casualty, Design/Build Contractor shall prepare and provide Owner with new copies of any such documents or materials, at no additional cost to Owner, unless Design/Build Contractor or Owner has a complete and undamaged set thereof.

5.2.7 Additional Design Services

5.2.7.1 Additional Design Services shall be provided by the Design/Build Contractor and paid for in accordance with this Agreement by the Owner if authorized in writing by the Owner. Prior to commencing any Additional Design Service, Design/Build Contractor shall submit to the Owner an Additional Services Proposal in a form acceptable to the Owner. The Additional Services Proposal shall describe in detail the nature or scope of the Additional Design Services, the basis upon which Design/Build Contractor believes that such services are Additional Services, the maximum amount of fees and reimbursable expenses for performance of the Additional Services, and a proposed schedule for the performance of the Additional Services. Design/Build Contractor shall proceed with the Additional Design Service only after written acceptance by Owner of the Additional Services Proposal.

5.2.7.2 Upon acceptance by Owner, each Additional Services Proposal and the services performed by Design/Build Contractor pursuant to such Additional Services Proposal shall become part of this Agreement and shall be subject to all the terms and conditions of this Agreement, as fully and completely as though the same had been included in this Agreement as a Basic Service at the original execution of this Agreement.

5.2.7.3 The following services, if requested by the Owner, are Additional Design Services:

The TPDES Consultant’s services shall include, without limitation, (1) recommending structural and non-structural BMPs to Project Architect or other subcontractors under this Contract, (2) preparing of Storm Water Pollution Prevention Plans (SWPPPs) and, as requested in writing by Owner, assisting in the updating of SWPPPs and all other permit documentation required by the TCEQ for the Project, and (3) the drafting of technical specifications governing the Design/Build Contractor’s obligations under the applicable TPDES regulations and the TCEQ General Permit for Storm Water Discharges From Construction Sites (“General Permit”) No. TXR 150000 and governing the Design/Build Contractor’s recommended courses of action under BMPs. The TPDES Consultant shall insure that the storm water pollution prevention plan has been prepared for the site in accordance with the General Permit and that such plan complies with approved State and/or local sediment and erosion plans or permits and/or storm water management plans or permits, including, without limitation, any TPDES permit issued to The University of Texas component on which the site is located. The TPDES Consultant, through the Design/Build Contractor, shall determine whether General Permit coverage is required, and, if so, shall advise Owner of Owner’s obligations under the General Permit and shall advise Owner of the Design/Build Contractor’s obligations under the General Permit. If there are multiple projects proposed to be conducted concurrently in contiguous areas and general permit coverage is required, the TPDES Consultant shall prepare one SWPPP for the entire area encompassing all projects and shall amend such SWPPP at the request of Owner to insure that the Design/Build Contractor of each project can comply with TPDES requirements and BMPs. DESIGN/BUILD CONTRACTOR SHALL INDEMNIFY AND HOLDS HARMLESS OWNER FROM ANY AND ALL LIABILITY, LOSS, DAMAGE, COST, AND EXPENSE ARISING OUT OF A VIOLATION OF THE APPLICABLE TCEQ TPDES REGULATIONS, BMPs, THIS PARAGRAPH OF THIS AGREEMENT, OR THE TERMS AND CONDITIONS OF THE GENERAL PERMIT TO THE EXTENT ATTRIBUTABLE TO AN ACT OR OMISSION OF DESIGN/BUILD CONTRACTOR, ARCHITECT OR ITS CONSULTANTS.

ARTICLE 6 PRE-CONSTRUCTION PHASE FEE

6.1 The Pre-Construction Phase Fee is the total compensation payable to the Design/Build Contractor for the performance of Pre-Construction Phase Services, except for Additional Pre-Construction Phase Services approved in advance and in writing by the Owner. The Pre-Construction Phase Fee shall be a lump sum amount based on the CCL set forth in this Agreement.

6.2 Except as specifically allowed in paragraph 6.4, the Design/Build Contractor shall not be entitled to any increase in the Pre-Construction Phase Fee for any costs, expenses, liabilities or other obligations arising from the performance of Pre-Construction Phase Services.

6.3 Costs associated with the following items are specifically, but not exclusively, in the establishment of the Pre-Construction Phase Fee: profit and profit sharing; general overhead; salaries and

labor; housing and relocation; fees and other payments to the Project Architect, its consultants and other professional service providers hired by the Design/Build Contractor to perform the Design Services; estimating, scheduling and information management systems and software; contract administration; office expenses; printing and copying; consulting fees; legal or accounting fees; cost of money; taxes; insurance premiums and deductibles; bond costs; purchase or rental of equipment; utilities; travel; per diem; fines or penalties; and damage awards.

6.4 If the scope of the Pre-Construction Phase Services is changed materially, the Pre-Construction Phase Fee shall be equitably adjusted. If the CCL is changed materially, due to a change in the project scope, before acceptance of the GMP Proposal, the Pre-Construction Phase Fee may be equitably adjusted solely at the discretion of the Owner in proportion to the change in the CCL. There shall be no adjustments in the Pre-Construction Phase Fee following acceptance of the GMP Proposal.

6.5 For Additional Pre-Construction Phase Services that are approved in advance and in writing by the Owner, Design/Build Contractor shall be entitled to additional compensation computed as a:

6.5.1 A pre-established lump sum amount; or

6.5.2 The hourly cost of Design/Build Contractor's employee's or consultants who actually perform the Additional Pre-Construction Phase Services based on the employee's Direct Salary Expense rate or prorated Monthly Salary Rate plus the actual cost of allowable expenses incurred in the performance of the Additional Pre-Construction Phase Services plus an overhead and profit markup of ten percent (10%) of the total cost; or

6.5.3 As otherwise agreed to by the parties in advance of performing the Additional Pre-Construction Phase Services.

ARTICLE 7 GUARANTEED MAXIMUM PRICE PROPOSAL

7.1 When the Parties agree that the design of the Project is sufficiently developed and documented to allow detailed pricing of its construction, Design/Build Contractor shall prepare and submit a Guaranteed Maximum Price ("GMP") Proposal to Owner. The GMP Proposal must be prepared in accordance with the guidelines and delivered in the format specified by Owner in the attached exhibits. Owner, at its sole option and discretion, may specify different requirements for the GMP Proposal. Design/Build Contractor shall not withdraw its Guaranteed Maximum Price Proposal for ninety (90) days following submission to the Owner.

7.2 The Design/Build Contractor shall review development of the GMP Proposal with the Owner on an ongoing basis to address clarifications of scope and pricing, distribution of contingencies, schedule, assumptions, exclusions, and other matters relevant to the establishment of a GMP.

7.3 The GMP Proposal must include a written description of how it was derived that specifically identifies the clarifications and assumptions made by the Design/Build Contractor in developing the proposed GMP and the monetary amounts attributable to them. The GMP Proposal shall include, without limitation, a breakdown of Design/Build Contractor's estimated General Conditions Costs and estimated Costs of the Work organized by trade; contingency amounts; the Construction Phase Fee; and the proposed Contract Time, including dates for Notice to Proceed, Substantial Completion and Final Completion.

7.4 The Guaranteed Maximum Price Proposal shall allow for all changes and refinements in the drawings and specifications through completion of the Construction Documents, except for material changes in scope.

7.5 The GMP Proposal may include a Design/Build Contractor's Contingency amount as allowed under Direct Construction Cost.

7.6 Included with its GMP Proposal, Design/Build Contractor shall provide two complete, bound sets of the drawings, specifications, plans, sketches, instructions, requirements, materials, equipment specifications and other information or documents that fully describe the Project as developed at the time of the GMP Proposal and that are relevant to the establishment of the GMP. The bound supporting documents shall be referenced in and incorporated into the GMP Proposal.

7.7 The GMP Proposal and all supporting documents shall identify and describe all items, assumptions, costs, contingencies, schedules and other matters necessary and relevant for proper execution and completion of the Work and for establishment of the Guaranteed Maximum Price. The GMP Proposal and the supporting documents are complementary and, in the event of an irreconcilable conflict between or among them, the interpretation that provides for the higher quality of material and workmanship shall prevail over all other interpretations.

7.8 In submitting the GMP Proposal, the Design/Build Contractor represents that it will provide every item, system or element of Work that is identified, shown or specified in the GMP Proposal or the supporting documents, along with all necessary or ancillary materials and equipment for their complete operating installation, unless specifically excepted by the Owner. Upon Owner's acceptance of the GMP Proposal, the Design/Build Contractor shall not be entitled to any increase in the Guaranteed Maximum Price due to the continued refinement of the Construction Documents or the absence or addition of any detail or specification that may be required in order to complete the construction of the Project as described in and reasonably inferable from the GMP Proposal or the supporting documents used to establish the GMP. Any costs that exceed the GMP shall be borne solely by the Design/Build Contractor without reimbursement by the Owner. Design/Build Contractor is responsible for all design, including incidental designing, detailing or both as required by the Specifications for shop drawing purposes, except for design provided by Owner's independent Design Consultants, if any.

7.9 Prior to commencement of the Construction Phase Services and concurrently with submission of the Guaranteed Maximum Price Proposal, the Design/Build Contractor shall submit for the Owner's acceptance a schedule for the performance of Construction Phase Services as specified. The Construction Phase Schedule shall include reasonable periods of time for the Owner's review and acceptance of design drawings and submissions and for approval of authorities having jurisdiction over the Project. Upon acceptance of a Guaranteed Maximum Price Proposal by the Owner, the Construction Phase Schedule shall not be modified except for good cause as approved by the Owner at the Owner's sole option and discretion.

7.10 The GMP Proposal shall adopt and incorporate all of the terms and conditions of this Agreement and all attachments to this Agreement. Any proposed deviation from the terms and conditions of this Agreement must be clearly and conspicuously identified to the Owner in writing and specifically accepted by the Owner. In the event of a conflict between any term of the GMP Proposal that was not clearly and conspicuously identified and approved by the Owner and the terms of this Agreement and its attachments, the terms of the Agreement and its attachments shall control.

7.11 Owner may accept or reject the Guaranteed Maximum Price Proposal or attempt to negotiate its terms with Design/Build Contractor. Upon acceptance by the Owner of the GMP Proposal in writing, both parties shall execute the GMP Proposal and the terms of the GMP Proposal, including the

Guaranteed Maximum Price and the supporting documents, shall become part of the Contract Documents. If the Owner rejects the GMP Proposal or the parties are unable or unwilling to agree on a GMP, the Owner may terminate this Agreement.

7.12 Following Owner acceptance of the GMP Proposal, Design/Build Contractor shall continue to monitor the development of the Construction Documents so that, when complete, the Construction Documents adequately incorporate and resolve all qualifications, assumptions, clarifications, exclusions and value engineering issues identified in the GMP Proposal. During the Construction Documents stage, the Design/Build Contractor and the Project Architect shall jointly deliver a monthly status report to the Owner describing the progress on the incorporation of all qualifications, assumptions, clarifications, exclusions, value engineering issues and all other matters relevant to the establishment of the GMP into the Construction Documents. The monthly status report shall also include an updated start-to-finish project schedule that encompasses the Project Architect's activities, the Design/Build Contractor's activities, and the Owner's commissioning and occupancy activities, short-term schedules, and production rates for key elements of the Project as determined by the Owner.

7.13 The Design/Build Contractor shall be entitled to an equitable adjustment of the GMP if it is required to pay or bear the burden of any new federal, state, or local tax, or any rate increase of an existing tax, except taxes on income, adopted through statute, court decision, written ruling, or regulation taking effect after acceptance of the GMP Proposal. This equitable adjustment does not apply to tax increases borne solely by Subcontractors.

7.14 The Parties may agree to convert the GMP to a lump sum contract amount at any time after the Design/Build Contractor has received bids or proposals from trade contractors or Subcontractors for the performance of all major elements of the Work. In proposing a lump sum amount, the Design/Build Contractor shall consider the buyout savings, any unused contingency amounts and the trade package contracts that have not been finalized. In preparing a lump sum conversion proposal, the Design/Build Contractor must provide the following information:

- The stage of completion of the Project;
- The trade packages that have been completely bought out;
- The trade packages remaining that have not been bought out;
- A complete line item breakdown of the calculations used to establish a lump sum amount based on the GMP Schedule of Values;
- An accounting of all savings amounts that are to be returned to the Owner as part of the lump sum calculation; and
- Any other Project information requested by the Owner.

7.15 The Design/Build Contractor shall document the actual Cost of the Work at buyout as compared to the Guaranteed Maximum Price proposal and shall report this information to the Owner monthly with Design/Build Contractor's recommendation for selection of a bid or proposal for each subcontracting package.

ARTICLE 8 CONSTRUCTION PHASE SERVICES

The Construction Phase shall be deemed to commence upon the date specified in a Notice to Proceed issued by Owner after approval of the Guaranteed Maximum Price Proposal and shall continue until Final Completion of all Work. Pre-Construction Phase Services may overlap Construction Phase Services. Design/Build Contractor shall not incur any costs for construction of the Work prior to issuance by Owner of written authorization to commence such Work. The Design/Build Contractor shall perform the following Construction Phase Services.

8.1 General Responsibilities

8.1.1 Construct the Work in strict accordance with the Construction Documents and as required by the UTUGCs and Owner's Specifications within the time required by the Project Schedule approved by Owner.

8.1.2 Organize and maintain a competent, full-time staff at the Project site with clearly defined lines of authority and communication as necessary to coordinate construction activities, monitor and direct progress of the Work, and further the goals of the Project Team.

8.1.3 Designate in writing a representative who is responsible for the day-to-day management of the Construction Phase Services. The designated representative shall be the Owner's primary contact during the Construction Phase and shall be available as required for the benefit of the Project and the Owner. The designated representative shall be authorized to act on behalf of and bind the Design/Build Contractor in all matters related to Construction Phase Services including, but not limited to, execution of Change Orders and Applications for Payment.

8.1.4 Attend Owner's regularly scheduled Project progress meetings and fully advise the Project Team of the Project status including schedule, costs, quality and changes.

8.1.5 In addition to attending Owner's regularly scheduled Project progress meetings, Design/Build Contractor shall schedule, direct and attend interim progress meetings with other members of the Project Team as required to maintain Project progress. Design/Build Contractor shall record and distribute the minutes of each meeting to each Project Team member. However, the certification of a Design/Build Contractor's Estimate for Partial Payment shall not be a representation that the Project

Architect has made any examination to ascertain how and for what purpose the Design/Build Contractor has used the moneys paid on account of the Contract Sum.

8.2.9 The Project Architect, with the approval of the Owner, shall interpret the technical requirements of the Contract Documents. The Project Architect shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of either the Owner or the Design-Build Contractor, and shall render written recommendations to the Owner within a reasonable time on matters relating to the execution or progress of the Work or the interpretation of the Contract Documents.

One copy of each submittal, shop drawing, product data, etc., shall be provided to the Owner.

8.2.12 The Project Architect shall provide assistance to the Owner in the review of the Design/Build Contractor's requests for change orders and pricing thereof.

8.2.13 The Project Architect shall prepare Change Orders for the Owner's approval and execution in accordance with the Contract Documents, and shall, with Owner's approval, have authority to order minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time, which are not inconsistent with the intent of the Contract Documents. In conjunction with each proposed change, the Project Architect shall review the cost and time estimate and recommend to the Owner whether the proposal is appropriate. The Project Architect shall prepare revised Contract Drawings, where appropriate, to illustrate and document the work required by the Change Order.

8.2.14 All proposed changes to drawings, plans and specifications, regardless of how initiated, shall be fully described in the document depicting them as to scope of work added, removed, or changed. The original copies of the Construction Documents may be revised to show such changes, provided that all such revisions shall be separately recorded on media acceptable to Owner, including, without limitation, CADD. Such revisions shall be clearly indicated and a current revision date shall be included on the reproducible copy. Changes to the specifications shall be made by consecutively numbered and dated revision addenda. All changes to design documents or specifications will be identified by date of change, revision number and other customary identification references. The Owner may obtain independent review of the design documents by its own Design Consultant. The Owner may require the Design/Build Contractor to halt production during design review.

9.8 The Owner shall furnish required information and services and shall render approvals and decisions as expeditiously as is consistent with reasonable skill and care and the orderly progress of the Design/Build Contractor's services and of the Work.

9.9 The Owner may designate one or more Construction Inspectors of its own who shall be given access to the Work as requested or needed. The provision of such Inspectors by Owner shall not reduce or lessen in any respect Design/Build Contractor's responsibilities for the Work. Design/Build Contractor shall remain fully and solely responsible for the drawings, specifications, and other contract documents furnished or provided by Design/Build Contractor, and for constructing the Project in strict accordance with the Contract Documents.

9.10 Owner shall have the right to reject any defective Work on the Project. Should Design/Build Contractor refuse or neglect to correct any such Work within a reasonable time after notice, Owner may have the Work corrected and recover all expenses incurred from Design/Build Contractor on demand.

ARTICLE 10 OWNERSHIP AND USE OF DOCUMENTS

10.1 Drawings, specifications and other documents furnished by the Design/Build Contractor or Project Architect are instruments of service and shall remain their property whether the Project for which they are made is executed or not. The Owner shall be permitted to retain copies, including reproducible copies and CADD copies, of the Drawings, Specifications and other documents for information and reference in connection with the Owner's use and occupancy of the Project. Design/Build Contractor and Project Architect hereby grant Owner an irrevocable, fully paid-up, perpetual license and right to use the drawings, specifications and other documents furnished, including the originals thereof, and the ideas and designs contained therein, for any purpose regardless of whether their services for the Project are completed, modified or terminated. This license shall survive the termination of this Agreement. If this Agreement is terminated, Design/Build Contractor and Project Architect hereby expressly consent to the employment by Owner of a substitute architect to complete the Design Services under this Agreement, with the substitute architect having all of the rights and privileges of the original Project Architect.

10.2 Submission or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Design/Build Contractor's or Project Architect's rights.

ARTICLE 11 TIME

11.1 Unless otherwise approved, the Owner and the Design/Build Contractor shall perform their respective obligations under the Contract as expeditiously as is consistent with reasonable skill and care and the orderly progress of the Work.

11.2 Time limits stated in the Contract Documents are of the essence of this Agreement. The Design/Build Contractor shall be responsible for schedule development, updating and reporting throughout the entire Project, including Pre-Construction Phase Services and Construction Phase Services. The Design/Build Contractor shall comply in all regards with requirements set forth in the Owner's Project Planning and Scheduling Specifications.

ARTICLE 12 PAYMENTS

12.1 General Requirements

12.1.1 Each Schedule of Values submitted with an Application for Payment shall include the originally established value for each work classification line item or subcontract and shall identify, by the

addition of new data rows immediately below the previously accepted data rows, any revisions to the costs or cost estimates for each work classification or subcontract. The format and tracking method of the original Schedule of Values and of all updates shall be subject to approval by the Owner. At all times, the estimated cost of performing the uncompleted and unpaid portion of the Work, including Design/Build Contractor's overhead and profit, shall not exceed the unpaid balance of the Guaranteed Maximum Price, less retainage on Work previously completed.

12.1.2 Pre-Construction Phase expenses of transportation and overnight living expenses in connection with Owner approved out-of-state travel shall be identified separately in each Application for Payment. All travel must be approved in writing and in advance by Owner to be eligible for payment. Allowable expenses are limited to the reimbursable amounts described in Article 24, Compensation.

12.1.3 Retainage as specified in the UTUGCs will be withheld from the entire amount approved in an Application for Payment including the Cost of the Work, General Conditions, and the Design/Build Contractor's Construction Phase Fee. Retainage will not be withheld from payments for Pre-Construction Phase Services.

12.1.4 Owner is an agency of the State of Texas and materials and services utilized in the construction of the Project may be exempted from state and local taxes. Design/Build Contractor is responsible for taking full advantage of all tax exemptions applicable to the Project. Owner will deduct from the Applications for Payment and from the Request for Final Payment any taxes paid for materials or services that were entitled to tax exemption.

12.1.5 This Agreement is subject to the assessment of liquidated damages against Design/Build Contractor. Amounts assessed as liquidated damages, and other amounts to which Owner is entitled by way of setoff or recovery, may be deducted from any moneys due Design/Build Contractor.

12.1.6 Owner shall have the right to withhold from payments due Design/Build Contractor such sums as are necessary to protect Owner against any loss or damage which may result from negligence by Design/Build Contractor or any Subcontractor or failure of Design/Build Contractor or any Subcontractor to perform their obligations under this Agreement.

12.1.7 Notwithstanding any contractual provision to the contrary, Owner shall not be obligated to make any payment, to Design/Build Contractor under any of the following circumstances:

12.1.7.1 Design/Build Contractor persistently fails to perform the Work in accordance with the Contract Documents or is otherwise in material breach or default under this Agreement;

12.1.7.2 The payment request includes services that are not performed in accordance with the Construction Documents; provided, however, Owner shall pay for those services performed in accordance with the Construction Documents;

12.1.7.3 The payment request has insufficient documentation to support the amount of payment requested for Project costs; provided, however, Owner shall pay for allowable Project costs for which there is sufficient documentation;

12.1.7.4 Design/Build Contractor is in violation of the Prevailing Wage requirements or has failed to make payments promptly to Subcontractors or other third parties used in connection with any services or materials for which Owner has made payment to Design/Build Contractor;

12.1.7.5 If Owner, in its good faith judgment, determines that the unpaid balance of the GMP is not sufficient to complete the Work in accordance with the Construction Documents;

12.1.7.6 Design/Build Contractor has persistently failed to complete the Work in accordance with the CPM Milestone Schedule requirements or if Owner, in its good faith judgment, determines that the remaining Work will not be completed within the Contract Time;

12.1.7.7 Design/Build Contractor is insolvent, makes a general assignment for the benefit of its creditors or otherwise seeks protection under the laws and regulations of the bankruptcy courts; or

12.1.7.8 Design/Build Contractor fails to obtain, maintain or renew insurance coverage as required by the Contract Documents.

12.1.8 No partial payment made by the Owner shall constitute, or be construed to constitute, final acceptance or approval of the work to which the partial payment relates or of the documentation provided in support of the partial payment. No partial payment made by the Owner shall constitute, or be construed to constitute, a release of Design/Build Contractor from any of its obligations or liabilities with respect to the Work.

12.1.9 Owner shall have the right to verify and audit the details of Design/Build Contractor's billings, certificates, accountings, cost data, and statements, either before or after payment, by (1) inspecting the books and records of Design/Build Contractor during normal business hours; (2) examining any reports with respect to this Project; (3) interviewing Design/Build Contractor's employees; (4) visiting the Project site; and (5) any other reasonable action. Design/Build Contractor's records shall be kept on the basis of generally accepted accounting principles in accordance with cost accounting standards issued by the Federal Office of Management and Budget Cost Accounting Standards Board and organized by each Application for Payment period.

12.2 Pre-Construction Phase Payments

12.2.1 Payments for Pre-Construction Phase Services shall be made monthly based on the percentage completion of the Design/Build Contractor's required services for each stage of development of the Construction Documents and the procurement of Subcontractor goods or services in accordance with the schedule in Article 24, Compensation.

12.2.2 All payment requests for Pre-Construction Phase Services shall be submitted on an Application for Payment and Schedule of Values approved by the Owner and includes all required attachments identifying payments to Project Architect, Historically Underutilized Businesses and to all Subcontractors.

12.3 Construction Phase Payments

12.3.1 Payments for Construction Phase Services shall be made as provided for in the UTUGCs and the Owner's Specifications. All payment requests shall be submitted on an Application for Payment with a Schedule of Values approved by the Owner and include all required attachments identifying payments to Historically Underutilized Businesses and to all Subcontractors. Payment for approved Change Orders shall be made as part of the Design/Build Contractor's Application for Payment. Failure to submit "HUB Progress Assessment Report Documentations of Subcontracted Work" form(s) with each Application for Payment will cause rejection of the application by the Owner and its return to the Design/Build Contractor.

12.3.2 The Design/Build Contractor's Construction Phase Fee and Construction Contract Administration Fee shall each be shown as separate line items on the Schedule of Values. Payment of the Design/Build Contractor's Construction Phase Fee shall be made with each Application for Payment in the same proportion as the percentage completion of the Cost of the Work of the Project.

12.3.3 For General Conditions Costs, Design/Build Contractor's Application for Payment shall include complete copies of all receipts, invoices with check vouchers or other evidence of payment, payrolls, and any and all other evidence which Owner or its designated representatives shall deem necessary to support the amount requested. This information is subject to audit and payment for these costs is dependent on Owner's receipt of accurate and complete records of all transactions. Owner may reduce the amount requested for General Conditions Costs in any Application for Payment if the Owner, in its good faith judgment, determines that the unpaid balance of the General Conditions line item in the Schedule of Values is not sufficient to fund necessary General Conditions Costs for the remainder of the Project.

12.3.4 Pay requests for Subcontractor work included in an Application for Payment shall not exceed the percentage of Work allocated to that Subcontractor for each respective Schedule of Values work classification which has been actually completed and shall not exceed the total value of the subcontract amount.

12.3.5 Design/Build Contractor's Request for Final Payment shall not be made until all Work is completed and all requirements of the Contract Documents have been satisfied including, without limitation: delivery to Owner of a complete release of all liens and claims arising out of the Work; written consent of surety to release of final payment; and an affidavit that, to the best of Design/Build Contractor's information, knowledge and belief, the release includes and covers all materials and services over which Design/Build Contractor has control and for which a lien could be filed and that all known debts and claims arising from the Project have been satisfied. Alternatively, Design/Build Contractor may, at its sole expense, furnish a bond satisfactory to Owner to indemnify Owner against any lien arising out of the Work. If any lien is asserted against Owner after all payments are made, Design/Build Contractor shall reimburse Owner for all damages and costs Owner may incur in discharging such lien, including all costs of court and reasonable attorneys' fees, and Owner shall retain all other remedies available to it at law and in equity.

12.3.6 Owner shall have no obligation to make Final Payment until a complete and final accounting of the Direct Construction Cost has been submitted by Design/Build Contractor and has been audited and verified by Owner or Owner's representatives.

12.3.7 Nothing contained herein shall require the Owner to pay the Design/Build Contractor an aggregate amount for Construction Phase Services that exceeds the Guaranteed Maximum Price or to make any payment if, in the Owner's belief, the cost to complete the Work would exceed the Guaranteed Maximum Price less previous payments to Design/Build Contractor. The total amount of all Construction Phase payments to the Design/Build Contractor shall not exceed the actual verified Direct Construction Cost for the Project plus the Design/Build Contractor's Construction Phase Fee.

12.3.8 The acceptance by Design/Build Contractor or Design/Build Contractor's successors of Final Payment under this Agreement, shall constitute a full and complete release of Owner from any and all claims, demands, and causes of action whatsoever that Design/Build Contractor, its Subcontractors, suppliers and consultants or any of their successors or assigns have or may have against Owner arising from the Project or any provision(s) of this Agreement except for those previously made in writing and identified by Design/Build Contractor as unsettled at the time of the Request for Final Payment.

ARTICLE 13 DIRECT CONSTRUCTION COST

Direct Construction Cost is defined in paragraph 3.6 and is the sum of the amounts that the Design/Build Contractor actually and necessarily incurs constructing the Work in strict compliance with the Construction Documents. Direct Construction Cost includes only the cost categories set forth in this

Article and does not include the Pre-Construction Phase Fee or the Construction Phase Fee unless specifically noted. References in the UTUGCs to adjustments in “cost” or “costs” mean the Direct Construction Cost.

13.1 General Conditions Costs

13.1.1 Design/Build Contractor is entitled to receive payment for the actual cost of the allowable General Conditions items incurred after receipt of a Notice to Proceed with Construction from the Owner through Substantial Completion of the Project plus thirty (30) calendar days. Design/Build Contractor is not entitled to reimbursement for General Conditions Costs incurred before receipt of the Notice to Proceed. General Conditions Costs incurred after Substantial Completion must be approved in advance by the Owner.

13.1.2 Allowable General Conditions items are identified below and further detailed in the attached exhibit. These items shall be included in the General Conditions cost amount shown as a line item in the Guaranteed Maximum Price Proposal and as detailed on the Schedule of Values. Items not specifically included below or in the exhibit will not be allowed as a General Conditions Costs.

13.1.3 Personnel Costs. The actual Worker Wage Rate for Design/Build Contractor’s hourly employees and the Monthly Salary Rate of Design/Build Contractor’s salaried personnel who are identified to the Owner in advance and in writing but only for the time actually stationed at the Project site with the Owner’s prior consent. The Project Manager’s Monthly Salary Rate may be included in the General Conditions Costs only when the Project Manager is directly managing the Project. All personnel costs are subject to audit to determine the actual cost of the wages, salaries and allowable employer contributions incurred by the Design/Build Contractor for services performed for the Project.

13.1.4 Costs of long-distance telephone calls, telegrams, postage, package delivery and courier service, hardwired telephone service, and reasonable expenses of Design/Build Contractor’s jobsite office if incurred at the Project site and directly and solely in support of the Work.

13.1.5 Costs of materials, supplies, temporary facilities, equipment, and hand tools (except those customarily owned by construction workers), supplied to the Project site by Design/Build Contractor, if such items are fully consumed in the construction of the Work and are included in the list of allowable General Condition Line Items. Cost for used items shall be based on fair market value and may include transportation, installation, and minor maintenance costs, and removal costs. If an item is not fully consumed in the construction of the Work, its cost shall be based on actual cost of the item less its fair market salvage value.

13.1.6 Rental charges for temporary facilities, equipment, and hand tools (except those customarily owned by construction workers), supplied to the Project site by Design/Build Contractor, provided they are included in the list of allowable General Condition Line Items and Owner has approved the rentals and the rental rates in advance and in writing. Rental rates may include transportation, installation, and minor maintenance costs, and removal costs. For tools, machinery or construction equipment rented directly from the Design/Build Contractor, the rental rate, including freight and delivery costs and all operating expenses except labor, shall be approved in advance by the Owner and shall be in accordance with the “Rental Rate Blue Book for Construction Mobilization Costs” published by Primedia, latest edition, but no higher than the prevailing competitive rates for rental of similar equipment in the Project vicinity.

13.1.7 The aggregate rental cost of any item charged to Owner shall not exceed ninety percent (90%) of the purchase price and maintenance cost of the item. If the anticipated aggregate rental cost for an item of equipment exceeds ninety percent (90%) of the purchase and maintenance price, Design/Build

Contractor shall purchase the equipment and turn it over to Owner upon final completion of the Work or, at Owner's option, credit the Owner with the fair market resale value of the item.

13.1.8 Permit and inspection fees that are not subject to exemption.

13.1.9 Premiums for insurance and bonds to the extent directly attributable to this Project. Premiums for Subcontractor bonds and/or Subcontractor default insurance purchased for subcontracted work are excluded from General Conditions Costs.

13.1.10 Governmental sales and use taxes directly attributable to the General Conditions Line Items that are not subject to exemption. Taxes paid on materials or services that were entitled to tax exemption will not be reimbursed by Owner.

13.2 Cost of the Work

13.2.1 Design/Build Contractor is entitled to receive payment for the actual cost of the allowable Cost of the Work items incurred after receipt of Owner's written authorization to commence the Construction Phase Work through Final Completion of the Project. Design/Build Contractor is not entitled to reimbursement for Cost of the Work costs incurred before receipt of Owner's written authorization.

13.2.2 Cost of the Work includes the following:

13.2.2.1 Costs of materials and equipment purchased directly by the Design/Build Contractor and incorporated into or consumed in the performance of the Work, including transportation charges, and a reasonable and customary allowance for waste and spoilage. Payment for stored materials is subject to the requirements set forth in the UTUGCs.

13.2.2.2 Costs of site debris removal and disposal in accordance with all applicable laws and regulations if not otherwise included in General Conditions Costs.

13.2.2.3 Payments made to Subcontractors and their vendors or suppliers by Design/Build Contractor for the subcontract work in accordance with the Construction Documents and the requirements of the subcontracts with the Subcontractors, vendors or suppliers. However, the cost of Subcontractor payment and performance bonds, if any, are specifically excluded from the Cost of the Work.

13.2.2.4 Payments earned by Design/Build Contractor for self-performed subcontract work, other than General Conditions work, in accordance with the Construction Documents and the terms of this Agreement and approved by the Owner.

13.2.2.5 Testing fees pursuant to the UTUGCs.

13.2.2.6 Intellectual property royalties and licenses for items specifically required by the Construction Documents which are, or will be, incorporated into the Work.

13.2.2.7 Costs associated with any Subcontractor default insurance program (sometimes referred to as SUBGUARD) provided or required by the Design/Build Contractor ARE EXPLICITLY EXCLUDED from the Cost of the Work.

13.3 Design/Build Contractor's Contingency

13.3.1 The Guaranteed Maximum Price Proposal may include a Design/Build Contractor's Contingency amount to be used to fund increases in the Direct Construction Cost of the Project identified through the refinement, development and completion of the Construction Documents or procurement of the Work.

13.3.2 Any re-allocation of funds from the Design/Build Contractor's Contingency to cover increases in the Direct Construction Cost must be approved by the Owner in advance and in writing, such approval not to be unreasonably withheld. In written requests to use the Design/Build Contractor's Contingency, the Design/Build Contractor shall provide detailed documentation of the scope of work affected and the bases for any increases in costs.

13.3.3 The Design/Build Contractor's Contingency is specifically not to be used for Contractor rework, unforeseen conditions, cost increases caused by lack of coordination or communication with the Project Architect or trade Subcontractors, or to correct errors or omissions in the Construction Documents.

13.3.4 As the Construction Documents are finalized and the Buyout of the Work progresses the Design/Build Contractor's Contingency amount shall be reduced by mutual agreement of Owner and Contractor. Any balance in the Design/Build Contractor's Contingency fund remaining at the end of the Project shall be returned to the Owner as savings.

ARTICLE 14 CONSTRUCTION PHASE FEE

The Design/Build Contractor's Construction Phase Fee is the maximum amount payable to the Design/Build Contractor for any cost or profit expectation incurred in the performance of the Work that is not specifically identified as being eligible for reimbursement by the Owner elsewhere in the Agreement. References in the UTUGCs to Design/Build Contractor's "overhead" and "profit" mean the Design/Build Contractor's Construction Phase Fee. The Construction Phase Fee includes, but is not limited to, the following items.

14.1 All profit, profit expectations and costs associated with profit sharing plans such as personnel bonuses, incentives, and rewards; company stock options; or any other like expenses of the Design/Build Contractor.

14.2 Salaries of Design/Build Contractor's officers, project manager(s), estimators, schedulers and all other employees not stationed at the Project site and performing services directly related to the Project.

14.3 Any and all overhead, labor or general expenses of any kind unless specifically allowed as General Conditions Costs. These costs include, but are not limited to: costs for the purchase, lease, rental, allowance, or maintenance of vehicles; jobsite computers, copiers and other business equipment; specialized telephone systems and cellular/digital phones; trade or professional association dues; cost for hiring and/or relocation of any of the Design/Build Contractor's personnel; and travel, per diem and subsistence expense of Design/Build Contractor, its officers or employees except as specifically allowed as General Conditions Costs.

14.4 In the event that the Design/Build Contractor elects to provide or require participation in a subcontractor default insurance program (sometimes referred to as SUBGUARD), the entire cost of the insurance program and all costs related to the administration of the program shall be included in the Construction Phase Fee.

14.5 All costs associated with payment and performance bonds obtained from trade contractors or Subcontractors, including Subcontractors bonds for change orders to subcontracts and the cost of any Subcontractor bonds for minor work that might be included in the General Conditions Costs.

14.6 All costs associated with Construction Contract Administration Services including those provided by the Project Architect or other consultants.

14.7 Any financial costs incurred by the Design/Build Contractor including the cost of capital or interest on capital, regardless of whether it is related to the Project, and costs associated with construction warranty reserves.

14.8 Any legal, accounting, professional or other similar costs incurred by the Design/Build Contractor, including costs incurred in connection with the prosecution or defense of any dispute, mediation, arbitration, litigation or other such proceeding related to or arising from the Project.

14.9 Any Federal and/or State income and franchise taxes paid by Design/Build Contractor. Any fines, penalties, sanctions or other levies assessed by any governmental body against Design/Build Contractor.

14.10 Any cost arising out of a breach of this Contract or the fault, failure or negligence of Design/Build Contractor, its Subcontractors, or any person or entity for whom they may be liable. These costs include, without limitation: costs to remedy defective, rejected, or nonconforming work, materials or equipment; costs due to failure to coordinate the Work or meet CPM Schedule milestones; costs arising from Design/Build Contractor's contractual indemnification obligations; liquidated or actual damages imposed by Owner for failure to complete the Work within the Contract Time; costs due to the bankruptcy or insolvency of any Subcontractor; and damage or losses to persons or property.

14.11 The cost of any and all insurance deductibles payable by the Design/Build Contractor and costs due to the failure of Design/Build Contractor or any Subcontractor to procure and maintain insurance as and to the extent required by the Contract Documents.

14.12 Any and all costs that would cause the Guaranteed Maximum Price, minus the amounts allocated in the GMP for Owner's Contingency and Owner's Special Cash Allowance, to be exceeded.

14.13 Any and all costs not specifically identified as an element of the Direct Construction Cost.

ARTICLE 15 CONTRACT SAVINGS, ALLOWANCES, REBATES AND REFUNDS

15.1 If the allowable, final, verified, audited amount of the General Conditions Costs, Cost of the Work, allowance items and Design/Build Contractor's Contingency is less than the amount established for each of those categories in the originally accepted Guaranteed Maximum Price Proposal, the entire difference shall be credited to the Owner as savings and the Contract Sum shall be adjusted accordingly. When buyout of the Project is at least 85% complete, the Owner may recognize any savings achieved to that point by issuing a deductive change order for the saved amount.

15.2 Items to be provided for through Owner's Special Cash Allowances shall be clearly identified in the Construction Documents and the Guaranteed Maximum Price Proposal. The Cost of the Work included in the allowances shall be determined in accordance with the UTUGCs.
